Identities of Gosford

Artist statement - Sharon Aldrick

These people I have chosen are just a few of the many dedicated people working for a better Gosford.

I wanted to show how Gosford is enriched with dedicated amazing people that give up their time and invest so much into making our community a better place.

I have chosen them because of their dedicated passion and philosophy towards art and culture and their connection to this place.

I would like to thank them for their beautiful character and letting me photograph them for this project.
